Windows 365 promotion extension for CSP customers

Microsoft has extended the availability of proof-of-concept trials of Windows 365 from April 1, 2023 to June 30, 2023.

Windows 365 CSP Trials are designed to help partners get started with Windows 365. The new trial experience is available for qualified customers as a promotion for select Windows 365 Enterprise and Windows 365 Business offers to try for 1 month.

Windows 365 Enterprise trial promotion allows to add up to 3 users per customer. Windows 365 Business trial promotion is for up to 1 user per customer. This is the perfect opportunity to test and pilot Windows 365 with your customers and build a pipeline for broader deployment.

What is Windows 365?

Windows 365 is a virtual PC in the cloud, which combine the power and security of the cloud with the familiarity of the PC. Only Microsoft can bring together the PC and the cloud with a consistent and integrated Windows experience.

A cloud PC is your personalized desktop, apps, settings, and content streamed securely from the cloud to your devices. It enables you to decrease costs while lowering the complexity of your environment as you deploy and manage virtual endpoints in Microsoft Endpoint Manager. No additional virtual desktop infrastructure (VDI) expertise or resources are needed.

In addition, Windows 365 enables you to:

- Procure, provision, and deploy in minutes, with optional automated OS updates.
- Offers user anywhere access to their personalized Windows desktop experience.
- Tailor compute and configurations for an elastic workforce.
- Pick up where you left off on the device of your choice.
- Optimize experiences on Windows endpoints.
- Scale confidently with per-user pricing.

 Next steps for partners:

- Review this information and share as appropriate within your organization.
